

MAYBE GREY HAT?

Nobody at this point is disputing the criminality and vacuousness of the illegitimate USA President, Joe Biden, the legitimate president of the corporation, masquerading as the government over the USA. But what about Vladimir Putin? Everyone in media and government is saying he's the worst thing since stale sliced bread.

I find Putin along with Trump to be quite enigmatic and unpredictable. Putin is known for supporting Christian freedom – something the Chinese don't do, and from which the American corporational satanic government is openly drifting. He's demonstrated that he's not a hothead by showing a great deal of self-discipline when excoriated by the west and had war made upon him by Biden.

Those things aside, he has a KGB history, and he rules Russia with an iron fist. The NEW WORLD ORDER people have long wanted to make the U.S. more like Russia, and Russia more like the U.S. so we could both be easily merged into the **satanic NEW WORLD ORDER (one world government)** they have been seeking for centuries. That, of course, would mean no more Constitution or God given rights – only government given rights – easily taken away. It does appear that we are close to that.

Klaus Schwab of the World Economic Forum (WEF) has told us by 2030 we "will own nothing and be happy". Of course he doesn't say who will own everything, but I suspect he will be one of them. Schwab has also pointed out that the WEF's young leaders training along with Trudeau and Merkel, includes Putin. So is Putin in Schwab's back pocket, was he, is he not now? Who knows? Time will tell. In the meantime, this writer is leery of Putin, while being cautiously optimistic that he might actually upset the **NEW WORLD ORDER'S** apple cart!
