Our Ambassador, Valeta Leigh, wishes to thank your offices worldwide, for the opportunity given to serve your country and her interests and rights abroad. Where together, we will train the new elected bodies into decent politics of true democracy and leadership as per developments in both the AI, CASHLESS SOCIETIES, and ID CHIP ERAS OF PANDEMICS, as human development has slowed down dramatically since the computer space race started out.

There are millions of institutions teaching students to be everything that one can name and be a specialist at, even digging holes, and I'm serious, but no institution teaches students the mannerisms needed in a changing world, a changing landscape, a changing political under and inner standing, policies and laws added daily that threaten freedoms and humanitarian rights, a changing digital and super nova era, even languages and morals are adjusting by the day, with no training provided.

Hence we at the NWA GAD will ensure that the Ambassadors within our institution are competently trained and remain under training for a minimum of 4 uninterrupted years' of service, adding and altering to be the best advisor to both our institutions, and together, we look forward to uniting humanity through the arts only of truth under law and true order, respecting the rights of societies, countries, races, religions, etc, but our main objectives are to ensure the growth of the nations we are representing to the best interests of what exactly is the value of my actions/inactions to the average Joe.

We look forward to your cooperation and thank you for the signed copy RETURN TO AMBASSADOR of each Ambassador to serve under your esteemed services, and serve humanity her true dues.
